ABOUT

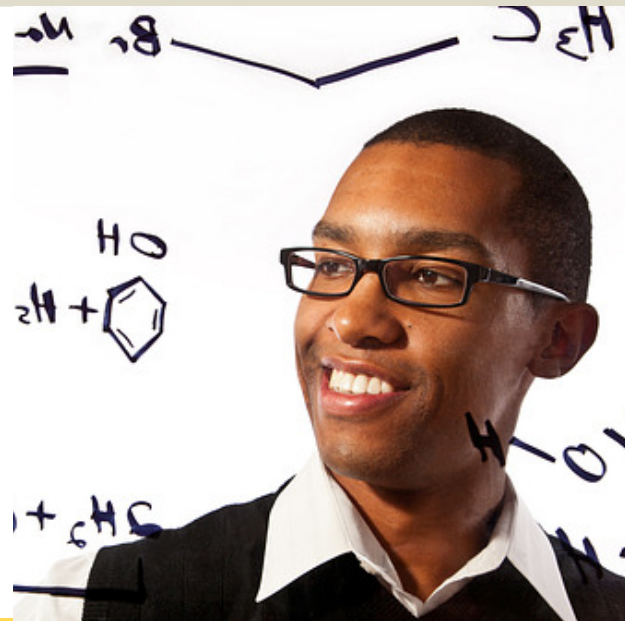

Mind Over Matter Consulting is an education consulting firm that develops talent amongst women and people of color to enter the technical workforce in the areas of Science, Technology, Engineering, and Mathematics (STEM). Mind Over Matter Consulting aims to increase STEM talent through academic preparation, career training, and support networks. Expanding the number of STEM degree recipients fulfills a national need for a skilled, technical workforce and accurately reflects the emerging demographics of the United States.

TESTIMONIALS

"It was wonderful to see [Mind Over Matter Consulting] command the attention of the young people, giving them both hope and options for their life pursuits."

- **Clyde Hicks, Retired Engineering Executive, Kraft Foods Group, Inc.**

"[Mind Over Matter Consulting] has truly help and motivate me to not only get accepted into a graduate program but also ... stand out apart from others. I was able to receive a graduate school offer and job offers all because of [the] hard work ...put in to help me with the process."

- **Linda Moise, Virginia Union University Undergraduate Student**

"Being a minority in the sciences is a hard situation...[Mind Over Matter Consulting] pushed and challenged me and made me really think critically about everything I had going on in my life. [Mind Over Matter Consulting] has inspired me to pursue my goals with hard work and dedication. I truly appreciate and value everything I have learned."

-**April Robinson, University of Richmond Undergraduate Student**
